

Sprint 2 Obstacles/Issues

Fortunately, our group did not run into any difficulties during sprint 2. We were able to create our Design document and our Hello World document without issue.

Sprint 3 Goals

- Complete the documentation for setting up the Amazon EC2 instance and installing Augur's dependencies in Sprint 3
- In Sprint 3, work on the installation script for installing Augur's dependencies
- Continue to manage time wisely and stay ahead of schedule for the project so that it is not necessary to rush to finish the sprint, which allows the highest quality of work to be created
